National Terrorism Advisory System Current Alerts

Note: [Report changes/updates are in blue](#)

SITUATION SUMMARY

Train Derailment, Atwood, Orange County

- On 04/07/15 the Cal OES Southern Duty Officer (SDO) advised that she was notified by the Orange County Sheriff's Department Emergency Management Division of a BNSF train derailment that occurred at 1753 hours in Yorba Linda (Orange County). The train cars remain upright and there were no spills reported and that no injuries were reported. The Orange County EOC did not activate and there are no requests for state assistance.
- Per the SDO and Metrolink at 0700 hours, Orange County Transportation Authority established bus bridges to transport impacted travelers on the Orange County Line to Fullerton, which is closed for the remainder of the day. All other rail commuter traffic on the Inland Empire Line and Orange County Line can expect delays of up to an hour due to track closures for the remainder of the morning. BNSF is working to clear and repair the damaged tracks. There are 3 sets of tracks at the location of the incident and one set of tracks was not damaged by the incident, which is being used to route train traffic on.
- Per BNSF and the National Response Center (NRC), 6 cars derailed and remained upright with no hazardous materials released. The entire train consisted of 80 cars and 5 locomotives. The California State Warning Center (CSWC) received a Hazardous Materials Spill Report (SPILL: 15-1928) from BNSF at 1946 hours and made notifications per the "Train Derailment SOP" which included the Department of Toxics Substance Control, the US EPA, and the California Public Utilities Commission.

Overtaken Fuel Tanker, Lakewood, Los Angeles County

- On 04/07/15 at 2238 hours the California State Warning Center (CSWC) received a report from the Los Angeles County Fire Department (LACoFD) advising that a fuel tanker had overturned on SB 605 Freeway at Carson Street in Lakewood, Los Angeles County (SPILL: 15-1931).
- LACoFD advised that the tank carries approximately 8,800 gallons.
- There were two persons trapped in the tanker, but they were extracted and transported to hospital.
- The CSWC made full notifications per the Hazardous Materials SOP.
- Per LACoFD via the Cal OES Southern Duty Officer (SDO) the leak has been plugged. Per Hazardous Materials Spill Report# 15-1931, approximately 2,000-4,000 gasoline released into the storm drain. LA County Health HazMat responded to scene to contain the spill. A pump truck was used to pump out the gasoline from the storm drain. Three lanes of the southbound 605 freeway were closed (the carpool, #1 and #2 lanes).

SITUATION SUMMARY

3.5 Earthquake, Placer and Nevada Counties

- On 04/07/15 at 2206 hours, an unverified 3.5 Earthquake (EQ) occurred 8 miles north of Tahoe Vista, Placer County near Truckee, Nevada County.
- Nevada County Warning Point (WP) advised that the EQ was felt. There were no reports of injuries or damage.
- Placer County WP advised there were no reports of injuries or damage.

Significant Activity – Joint Law Enforcement and Fire Branches, Shasta County

Cal OES Law Duty Officer was alerted by the Cal OES Fire Duty Officer of a joint Law/Fire response to the WalMart store in Anderson, Shasta County, involving a report of one or more chlorine bombs in a store rest room. A Fire Assistant Chief responded to the incident at the request of Anderson FD and provided on scene reporting during this incident. Initial reports out of Shasta County Sheriff's Office (SO) were that multiple juveniles were seen entering this rest room under suspicious circumstances. Local law enforcement (LE) was called and found unknown chemicals in the sink which were off gassing and causing an unpleasant odor. The area was secured and the Shasta SO Bomb Squad, along with EOD personnel from Anderson FD, responded. Approx. 0138 hours, the Shasta SO Bomb Squad Team Leader advised their robot rendered safe a crude device commonly referred to as an acid bomb; the device(s) failed to detonate and no injuries were reported. An investigation is ongoing as there is store surveillance footage of multiple juveniles believed to be responsible.

Cal EOC Incident – 2014 Drought

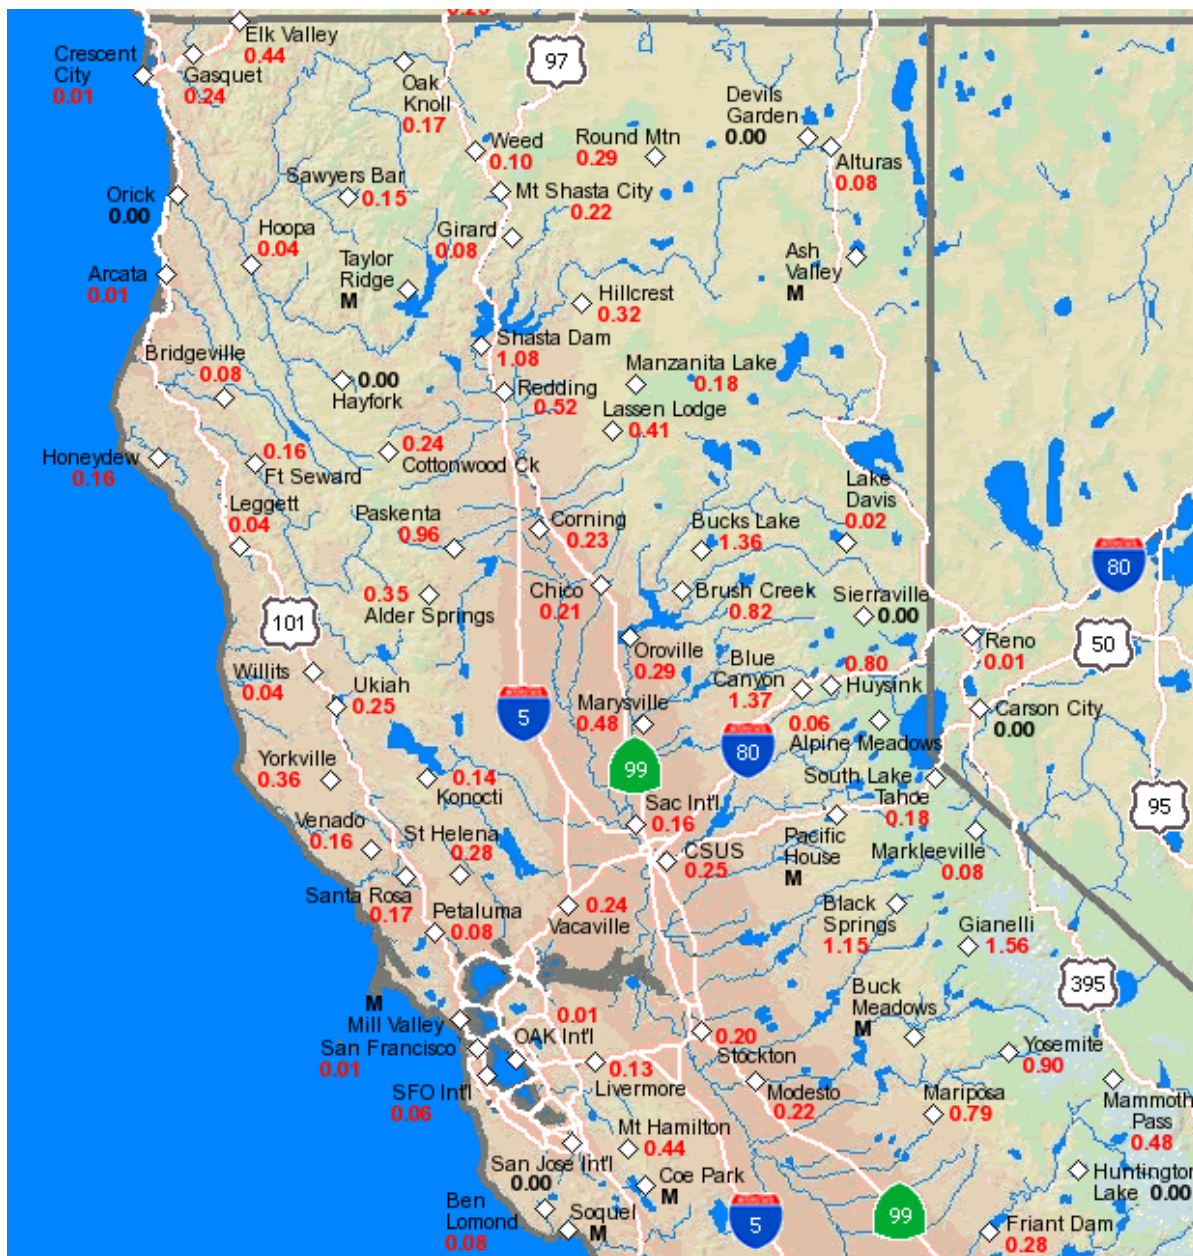

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry weather and a slight warming trend will develop through Friday as high pressure builds behind the exiting storm system. The next opportunity for wet weather will come this weekend.

Medford Weather:

Mostly cloudy this morning then becoming partly cloudy with a 20 percent chance of rain and snow showers. Snow level will be approximately 2000 feet rising to 4000 feet this afternoon, with highs in the mid40s to mid50s.

Reno Weather:

Snow showers will continue early this morning with slick road conditions mainly for the Sierra for the morning commute. Showers will diminish this afternoon with temperatures remaining below normal. A warming trend is then expected through Friday, followed by breezy conditions and slight cooling for the weekend.

San Francisco Weather:

A few residual showers will continue this morning. High pressure will rebuild over the west coast. This will result in dry conditions through the upcoming weekend and early next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Lingering mountain showers could continue today, otherwise dry and warmer conditions can be expected for the latter part of the week. The low will move well to the east today but some lingering moisture and a very weak wave moving onto the Pacific Northwest may be able to help touch off some isolated showers during the day.

Hanford Weather:

Isolated showers will linger in the mountains today in the wake of a storm system over the great basin. Otherwise...today will be partly cloudy with cooler than normal temperatures. A ridge of high pressure will build over the district this week and bring dry weather with a day to day warming trend through the weekend.

Southern California:

Los Angeles Weather:

There will be gradual warming over the next few days with mostly clear skies. High temps will remain a tad below or around normal for this time of year through early next week. Weak offshore flow will give way to stronger onshore flow Friday bringing a return of low clouds and patchy fog for some coastal areas and possibly a few valley zones this weekend into next week.

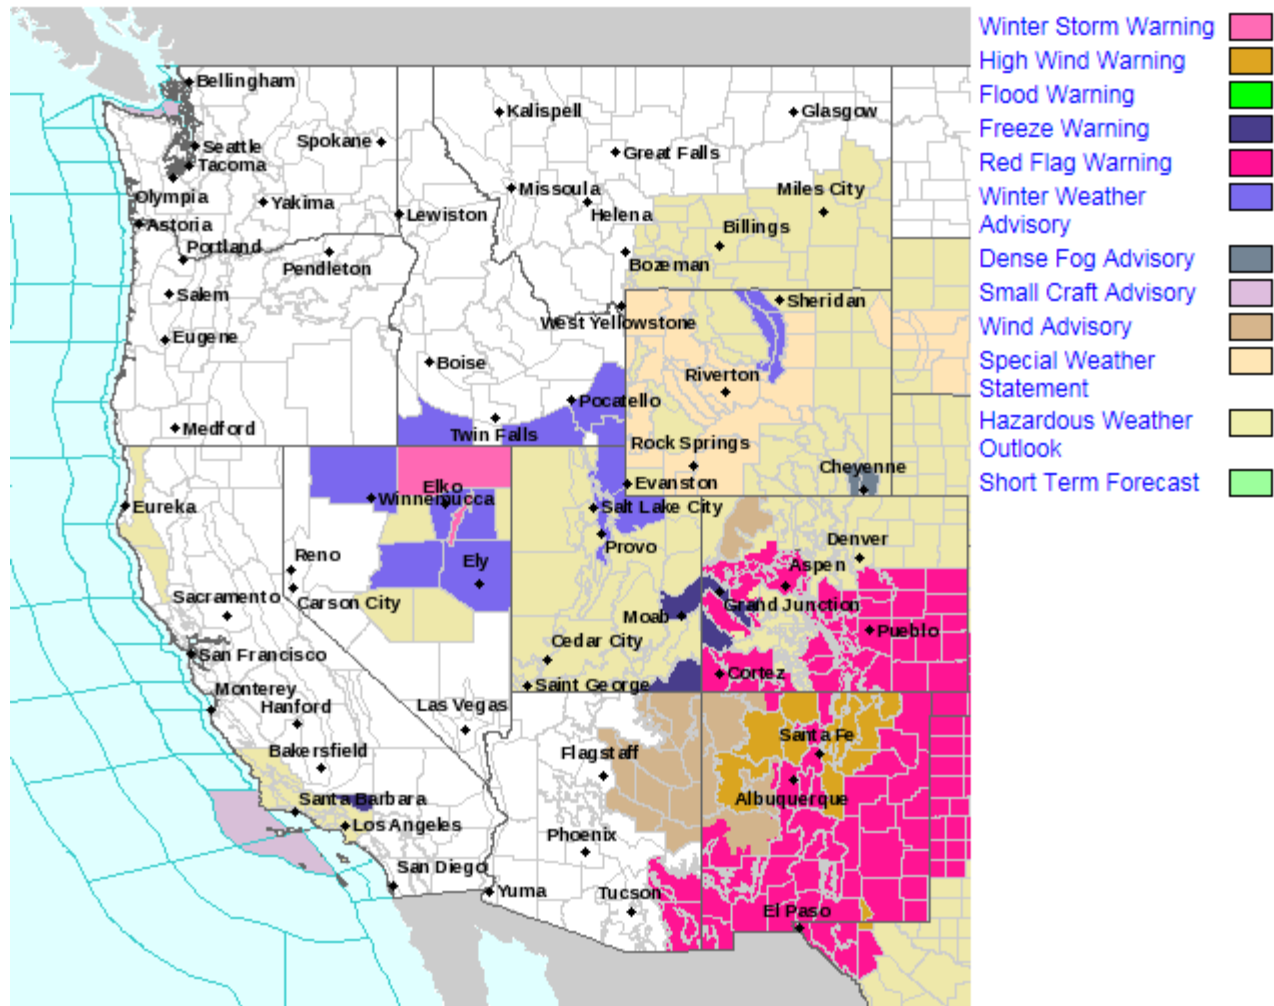

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Rain showers have ended for much of the region early this morning. A few lingering showers over San Diego county will dissipate around daybreak. Weak high pressure aloft will bring dry weather for the rest of today through Friday. Over the weekend a low pressure trough moving across Northern Baja will bring some bands of clouds, but precipitation is not expected.

Southeast California Weather:

Low pressure moving slowly eastward across the Great Basin will bring below normal temperatures and locally gusty winds to the region today. A slow warming trend is then forecast from Thursday through Saturday as high pressure ridging gradually rebuilds over the desert southwest. Mainly clear skies return to the entire region early next week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

Project Totals as Day 10:

38	Homeowners who registered for the removal project.
3	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
10	Debris removal completed.
9/0	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 10:

Category	Total Tons
Debris and Ash Disposed	1,199
Soil Disposed	1,390
Metals Recycled	612
Concrete Recycled	1,241
Total All Categories	4,442

Estimated Daily Tonnage:

Category	Day 10
Debris/Ash	116
Soil Disposed	318
Metal Recycled	80
Concrete Recycled	0
Total	514

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order [B-26-14](#) on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order [B-29-15](#) on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
